

**Introduction:**

I am Ajinkya Nilesh Jadhav, currently a student of VESIT, Chembur , pursuing a Bachelor's degree in Engineering in Information Technology. I currently study in class D10B and I am an active member of VESIT Dance Crew(VDC) as well as a Graphic Executive in QuestIT, which is a technical cell created for and by the students of the IT department. I hereby present my Statement of Purpose for joining the SE council of ISTE-VESIT.

**Why do I need ISTE?**

ISTE is currently (if not) the most prevailing technical society in VESIT with a large number of technical and non-technical workshops on a big scale, and organizing and conducting workshops which requires a lot of skill and hard work. I have always wanted to become a part of ISTE-VESIT as I believe that it will help me increase my soft as well as hard skills and make me a well rounded person.

**Why does ISTE-VESIT need me?**

I tend to do things as best and perfectly as I can. I am a quick learner and can easily adapt to new situations. I am very eager to learn new things. I am up to doing work from domains other than the one I get selected for as I am more interested in becoming well rounded rather than just being good at one thing. I am not scared of giving opinions and critics and try to think as quick and logically as I can to ensure smooth working. I am a person with a warm and polite personality Hence I believe I will be definitely beneficial to the council.

**Interests:**

- Listening to Music
- Art
- Dance
- Photography

**Strengths:**

1. Public speaking/formal speech.
2. Multitasking.
3. Quick Adaptation.
4. Patience.
